"Firstly want to thank teacher's for conducting remedial class.

Thanks to hymavathi mam for conducting extra class for maths
My daughter scored less mark in pt2 maths exams .because of the remedial class now my daughter got A1 in this subject. Thanks to teacher's and the management for putting extra effort on the students who were weak in particular subject's and help student to score good marks in pt3. The certificate prize distribution has come to me as surprise. I haven't think this would happen this year because of this pandemic. Teacher's and the management efforts are much appreciated and this made my daughter encourage to participate in more Cca activities .

Thank you all teacher once again

As a parent from our end there is absolutely no suggestions bcoz the teachers r putting out lot of efforts and it's a huge task for them in dis pandemic with students with continuous repeating of all chapters so that children may not forget it.. lot of revisions are been also taking by teachers before cd's to gain more marks so that no child can lack back.. It's really tough to manage but hats off for their successful online education.. Education, discipline,extra curricular activities n projects all r going hand to hand...From r end v bow and respect for their efforts n strain.
